

Tiffanie

Coat length and Texture:

COAT LENGTH AND TEXTURE Medium to long, fine and silky in texture, without a woolly undercoat. The coat should appear dense, but lie flat along the spine and display a glossy shine. The tail should be plume-like. The furnishings from inside the ear may form tufts and the tufts at the tips of the ears are acceptable. A ruff is desirable in the mature cat and preference should be given to the cat with a ruff and full breeches. Tiffanies do not normally achieve full coat until mature (2 years plus), and allowances should be made for shorter coats and lack of ruff in kittens.

Tiffanie Eye colours

Allowable Outcross Breeds: None

Asian Group

This group includes the following: Asian, Bombay, Burmilla and Tiffanie.

HEAD	Slightly rounded on top with good breadth between ears, having wide cheekbones and tapering to a short, blunt wedge. Jaw wide at hinge. There is a distinct nose break and the chin shows a strong lower jaw.
EARS	Medium in size, set well apart, broad at base, with slightly rounded tips. The outline of the ears continues the shape of the upper part of the face and has a slight forward tilt in profile.
EYES	Set well apart, large and lustrous. The top line of the eye is straight with a slight oriental slant towards the nose, the lower line being rounded.
CHIN	Firm.
BODY	Medium length and size and elegant, feeling hard and muscular, and heavier than its appearance indicates. Chest strong and rounded in profile. Back straight from shoulder to rump.
LEGS	Legs slender in proportion to body, hind legs slightly longer than front legs.
PAWS	Paws neat and oval in shape.
TAIL	Straight, medium in length, not heavy at base, tapering only slightly to a rounded tip.
