

## Highland Fold

<b>HEAD</b>	Well rounded with full cheeks and a firm chin. Muzzle to have well rounded whisker pads.
<b>EARS</b>	Folded forward and downward. Small - the smaller, tightly folded ear preferred over a loose fold and large ear. The ears should be set in a cap-like fashion to expose a rounded cranium. Ear tips to be rounded.
<b>EYES</b>	Set well apart, large and well rounded. Wide open with a sweet expression.
<b>NOSE</b>	Short and broad with a slight stop. A definite nose break is a fault. Profile is moderate in appearance.
<b>NECK</b>	Short.
<b>BODY</b>	Medium rounded and even from shoulder to pelvic girdle. The cat should stand firm on a well-padded body. Overall appearance of a well-rounded cat with medium bone. Males proportionately larger.
<b>LEGS</b>	Medium in length and in proportion to body. There must be no hint of thickness or lack of mobility due to short, coarse legs.
<b>PAWS</b>	Round with neat well-rounded toes.
<b>TAIL</b>	Medium to long, but in proportion to the body. Flexible and slightly tapering. Longer, tapering tail preferred.
<b>COAT</b>	Medium to long coat. Dense and soft in texture. Full of life, standing away from the body. Ruff, trousers and fairly full-to-full brush desirable.
<b>COAT COLOUR</b>	All colours and patterns acceptable.
<b>EYE COLOUR</b>	To correspond to coat colour/pattern.

### SCALE OF POINTS

<b>Type:</b>	<b>Head</b>	<b>15</b>
	<b>Ears</b>	<b>20</b>
	<b>Eyes</b>	<b>15</b>
	<b>Body and Legs</b>	<b>10</b>
	<b>Tail</b>	<b>20</b>
<b>Coat:</b>	<b>Coat length and texture</b>	<b>15</b>
	<b>Temperament &amp; Condition</b>	<b>5</b>
		<b>100</b>

### FAULTS

Major awards may be withheld, depending on the degree of the faults:

- Large ears
- Oval or almond shaped eyes
- Definite nose break
- Short legs and / or tail
- Any of the defects as listed in the Relevant to All Breeds Section.

**Allowable Outcross Breeds:** Persian, Exotic and British  
**Standard amended:** January 1999/ 2010/ 2020
