

Russian

HEAD	Medium wedge with a flat skull and forehead; a straight nose, high cheek bones and prominent whisker pads. In profile the forehead and nose are straight, forming an angle where they meet. The chin should be strong and deep with a level bite. Allowance should be made for mature males with jowls which may disguise the true wedge.
EARS	Large pointed ears in balance to the head, slightly taller than wide, wide at the base, set vertically to the head and not flared. The tips of the ears are just inside a vertical line with the outer edge of the eyes. The skin of the ears is thin, with sparse inside furnishing.
EYES	Set rather wide apart, almond in shape
CHIN	Firm chin
BODY	Long and graceful in outline and carriage. Medium strong bone, and well muscled
LEGS	Long
PAWS	Small and oval
TAIL	Fairly long and tapering. Neither blunt-ended nor whippy
COAT	Short, thick, very fine, soft and silky, with plush-like texture. Very different from any other breed. Coat is double and has a lustrous appearance. Areas of shorter fur show a distinct silver sheen. The texture and appearance of the coat are the truest criteria of the breed.
EYE COLOUR	Vivid Green
